

DIARY CURRICULUM MAP

SUBJECT: Mathematics 8

GRADE LEVEL: Grade 8

TEACHER: Mrs. Roselle B. Arellano

Term No.: Month	Unit Topic: Content	Standards	Formation Standard	Learning Competencies	Assessment	Activities	Resources	Institutional Core Values	
Term 1 Week No. 2 June 15 - 19	Measures of Central Tendency of Ungroupe d Data	Content Standard/s <i>The learners demonstrate understanding of</i> . . . measures of central tendency of ungrouped data	<i>The learners will become . . . accurate and fair in collecting and interpreting data</i> Bible Verse: Luke 16:10 “Whoever is faithful in very little is also faithful in much, and whoever is dishonest in very little is also dishonest in much.”	ACQUISITION					
				A.1.1 determine measures of central tendency of ungrouped data.	A.1.1 Formative Assessment Selected Response – Multiple Choice	A.1.1 Interactive Simulation Skills Practice	A.1.1 Online Resources Used of AI https://chatgpt.com/c/6a30e33e-1364-83ec-a3e0-6773ab8b697c	Integrity 21 st Century Skill/s Critical thinking Honesty	
				MAKE-MEANING					
				A.1.2 draw conclusions from statistical data using the measures of central tendency.	A.1.2 Formative Assessment Constructed Response	A.1.2 Write conclusions based on calculated	A.1.2 Teacher Made Worksheets		

			Values Grid Integration: Honesty, Accuracy		with Conclusion and Generalization	central tendency.		
				TRANSFER				
		Performance Standard/s <i>The learners should be able to . . . add and subtract monomials, and multiply combinations of monomials, binomials, and multinomials.</i>		Transfer Goal A.1.3 organize, compute, and present data accurately	A.1.3 Formative Test Summative Assessment	A.1.3 Problem analysis and making decision Performance Task 1	A.1.3 Teacher-made task	
Term 1 Week No. 3 June 22-26	Algebraic Expressions	Content Standard/s <i>The learners demonstrate understanding of . . . algebraic expressions and operations with monomials, binomials, and multinomials</i>	<i>The learners will become . . . consistent in applying algebraic concepts in real-life situations responsibly.</i> Bible Verse: Colossians 3:23 “Whatever you do, work at it with all your heart, as	ACQUISITION				
				B.1.1 Identify like terms.	B.1.1 Short Response - Identification	B.1.1 Answering Teacher-made worksheet	B.1.1 Used of AI	Integrity Critical Thinking
				MAKE-MEANING				
				B.1.2	B.1.2 Short Response:	B.1.2 Answering Worksheets	B.1.2 Math Builders by Joes	

			<i>working for the Lord.</i> –	Model real-life situations using algebraic expressions.	Solving Using Varied Techniques and Models			
			Values Grid Integration:	TRANSFER				
		Performance Standard/s <i>The learners should be able to . . .</i> add and subtract monomials, and multiply combinations of monomials, binomials, and multinomials.	Integrity	Transfer Goal B.1.3 Solve real-life problems involving quantities that change at constant rates or follow patterns, demonstrating accuracy, efficiency, and mathematical reasoning in making decisions.	B.1.3 Formative Assessment - Short Response. Identification Summative Test	B.1.3 Worksheet Activity Written Output 1	.1.3 Math Builders By Joes	

ACQUISITION								
Term 1 Week No. 4 June 29 – July 3	Addition and Subtraction of Algebraic Expressions	Content Standard/s <i>The learners demonstrate understanding of . . .</i> algebraic expressions and operations with monomials, binomials, and multinomials.	The learners will become . . . consistent in applying algebraic concepts in real-life situations responsibly. Bible Verse: Colossians 3:23 “Whatever you do, work at it with all your	C.1.1 Identify similar terms	C.1.1 Formative Assessment - Drills	C.1.1 Guided Practice	C.1.1 Rex Publishing House Used of AI https://chatgpt.com/c/6a310881-1008-83ec-a328-c8cac7a5ac49	Excellence Collaboration

			<i>heart, as working for the Lord.” –</i>					
				MAKE-MEANING				
				C.1.2 add and subtract simple monomials.	C.1.2 Formative Assessment - Short Response	C.1.2 Guided Practice	C.1.2 Rex Publishing House	
							Used of AI Worksheet	
		Performance Standard/s <i>The learners should be able to . . .</i> add and subtract monomials, and multiply combinations of monomials, binomials, and multinomials.	Values Grid Integration: Excellence	TRANSFER				
				Transfer Goal represent and simplify real-life situations involving quantities	C.1.3 Summative Assessment - Output	C.1.3 Answering Written Output	C.1.3 Used of AI Worksheet https://chatgpt.com/c/6a310881-1008-83ec-a328-c8cac7a5ac49	

Term 1 Week No. 5 July 7-10	Multiplication and Division of Algebraic Expressions	Content Standard/s <i>The learners demonstrate understanding of . . .</i> algebraic expressions and operations with	The learners will become . . . consistent in applying algebraic concepts in real-life situations responsibly.	ACQUISITION				
				D.1.1 Identify Laws of Exponents	D.1.1 Formative Assessment - Drills	D.1.1 Guided Practice	D.1.1 Rex Publishing House Used of AI https://chatgpt.com/c/6a310881-1008-83ec-a328-c8cac7a5ac49	Excellence Collaboration

		monomials, binomials, and multinomials.	Bible Verse: Colossians 3:23 <i>“Whatever you do, work at it with all your heart, as working for the Lord.” –</i> Values Grid Integration: Excellence				83ec-a328-c8cac7a5ac49	
				MAKE-MEANING				
				D.1.2 Multiply and divide simple monomials, leading to the derivation of the laws of exponents	D.1.2 Formative Assessment - Short Response	D.1.2 Guided Practice Activity Work sheet	D.1.2 Rex Publishing House Used of AI Worksheet	
		TRANSFER						
		Performance Standard/s <i>The learners should be able to . . . add and subtract monomials, and multiply combinations of monomials,</i>		Transfer Goal D1.3 represent and simplify real-life situations involving quantities	D.1.3 Summative Assessment - Output	D.1.3 Summative Test 1	D.1.3 Used of AI Worksheet https://chatgpt.com/c/6a310881-1008-83ec-a328-c8cac7a5ac49	

		binomials, and multinomials.						
--	--	------------------------------	--	--	--	--	--	--

Term 1 Week No. 6 July 13-17	Multiplication and Division of Algebraic Expressions	Content Standard/s <i>The learners demonstrate understanding of . . .</i> algebraic expressions and operations with monomials, binomials, and multinomials.	The learners will become . . . consistent in applying algebraic concepts in real-life situations responsibly. Bible Verse: Colossians 3:23 <i>“Whatever you do, work at it with all your heart, as working for the Lord.” –</i> Values Grid Integration:	ACQUISITION				
				E.1.1 Identify Laws of Exponents	E.1.1 Summative Assessment – Identification, Multiple Choice	E. 1.1 Summative Test 1	E.1.1 Teacher-Made Assessment	Excellence Critical Thinking
				MAKE-MEANING				
				E.1.2 multiply and divide simple monomials, leading to the derivation of the laws of exponents multiply simple monomials and binomials with simple binomials and multinomials, using the distributive property with various techniques and models.	E.1.2 Summative Assessment – Identification, Multiple Choice	E.1.2 Summative Test	E.1.2 Teacher Made Assessment	
		TRANSFER						
		Performance Standard/s <i>The learners should be able to . . .</i>	Integrity	Transfer Goal E1.3 represent and simplify real-life situations involving quantities	E.1.3 Summative Assessment	E.1.3 Summative Test	E.1.3 Teacher-Made Worksheet	

		add and subtract monomials, and multiply combinations of monomials, binomials, and multinomials.						
--	--	--	--	--	--	--	--	--

Term 1 Week No. 7 July 20-24	Special Products	Content Standard/s <i>The learners demonstrate understanding of . . .</i> special products for binomials, and factorization of polynomials.	The learners will demonstrate integrity, perseverance, and excellence in simplifying and factoring algebraic expressions, recognizing order, patterns, and structure as reflections of discipline and logical thinking in real-life problem solving.	ACQUISITION				
				F.1.1 Identify Kinds of Special Products	F.1.1 Formative Assessment – Identification	F. 1.1 Practice worksheet	F.1.1 Teacher-Made Worksheet	Excellence Critical Thinking
				MAKE-MEANING				
		F.1.2 use special product patterns to multiply binomials solve problems involving special products		F.1.2 Formative Assessment – Problem Solving Summative Assessment	F.1.2 Activity Worksheet Performance Task 2	F.1.2 Teacher Made Assessment		
		TRANSFER						
		Performance Standard/s <i>The learners should be able to . . .</i> add and subtract monomials, and multiply combinations of monomials,	Bible Verse: But all things should be done decently and in order.” — 1 Corinthians 14:40	Transfer Goal E1.3 represent and simplify real-life situations involving special products	F.1.3 Formative Assessment Drills	F.1.3 Activity Worksheet	F.1.3 Teacher-Made Worksheet	

		binomials, and multinomials.	Values Grid Integration: Excellence and Perseverance					
--	--	------------------------------	--	--	--	--	--	--

Term 1 Week No. 8 July 27-31	Factoring	Content Standard/s	The learners will demonstrate integrity, perseverance, and excellence in simplifying and factoring algebraic expressions, recognizing order, patterns, and structure as reflections of discipline and logical thinking in real-life problem solving. Bible Verse: But all things should be done decently and in order.” — <i>1</i>	ACQUISITION					Excellence Critical Thinking
		G.1.1 Identify Kinds of Special Products		G.1.1 Formative Assessment – Identification	G. 1.1 Practice worksheet	G.1.1 Teacher-Made Worksheet			
		MAKE-MEANING							
		G.1.2 use special product patterns to multiply binomials solve problems involving special products		G.1.2 Formative Assessment – Problem Solving Summative Test	G.1.2 Activity Worksheet Written Output 2 Summative Test 2 Teacher-Made test	G.1.2 Teacher Made Assessment Teacher Made Test			
		TRANSFER							
		Performance Standard/s		Transfer Goal G1.3	G.1.3 Formative Assessment	G.1.3 Activity Worksheet	G.1.3		

		<i>The learners should be able to . . . factorize different types of polynomials.</i>	Corinthians 14:40 Values Grid Integration: Excellence and Perseverance	represent and simplify real-life situations involving special products	Drills		Teacher-Made Worksheet	
--	--	---	--	--	--------	--	------------------------	--

Term 1 Week No. 9 August 3-7	Rational Algebraic Expressions	Content Standard/s	The learners will demonstrate integrity, perseverance, and excellence in simplifying and factoring algebraic expressions, recognizing order, patterns, and structure as reflections of discipline and logical thinking in real-life problem solving.	ACQUISITION					Excellence Critical Thinking
		<i>The learners demonstrate understanding of . . .</i> special products for binomials, and factorization of polynomials.		H.1.1 simplify rational algebraic expressions	H.1.1 Formative Assessment – Solving	H. 1.1 Practice worksheet	H.1.1 Teacher-Made Worksheet		
				MAKE-MEANING					
				H.1.2 perform operations on rational algebraic expressions solve problems involving simple rational algebraic equations (using cross-multiplication).	H.1.2 Formative Assessment – Problem Solving Summative Assessment	H.1.2 Activity Worksheet Written Output 3	H.1.2 Teacher Made Assessment		
		Performance Standard/s	Bible Verse: But all things should be done decently and in order.”	TRANSFER					
			Transfer Goal H1.3 represent and simplify real-life situations	H.1.3 Formative Assessment Drills	H.1.3 Activity Worksheet	H.1.3 Math Builders Used of AI			

		<i>The learners should be able to . . .</i> simplify, and operate with, rational algebraic expressions and solve simple rational algebraic equations.	— <i>1 Corinthians 14:40</i> Values Grid Integration: Excellence and Perseverance	involving rational algebraic expressions				
--	--	--	--	--	--	--	--	--

Term 1 Week No. 10 August 10-14	Generatin g Patterns	Content Standard/s <i>The learners demonstrate understanding of . . .</i> rules for obtaining terms in sequences.	The learners will demonstrate discipline, patience, and analytical thinking in identifying patterns and deriving rules in sequences, recognizing that order and consistency are essential in both mathematics and daily life.. Bible Verse: “For God is not a God of disorder but of peace.”	ACQUISITION				
				I.1.1 formulate the rule for finding the next term in a sequence by looking for patterns.	I.1.1 Formative Assessment – Solving	I. 1.1 Practice worksheet	I.1.1 Teacher-Made Worksheet	Excellence Critical Thinking
				MAKE-MEANING				
				I.1.2 Determine the next number in a sequence	I.1.2 Formative Assessment – Problem Solving Summative Assessment	I.1.2 Activity Worksheet Performance Task 3	I.1.2 Teacher Made Worksheet	Collaboration
		TRANSFER						
Performance Standard/s		Transfer Goal I1.3	I.1.3 Self Assessment	I.1.3 Reflective Journal	I.1.3 Teacher Made Journal			

		<i>The learners should be able to . . . obtain the rule for finding the next term in a sequence.</i>	— 1 Corinthians 14:33 Values Grid Integration: Discipline and Accuracy	Represent patterns in real-life problems				
--	--	--	---	--	--	--	--	--

Term 1 Week No. 11 August 17 - 21	Rectangular Coordinate System	Content Standard/s <i>The learners demonstrate understanding of . . . plotting points, and finding distance and the midpoint of line segments on the Cartesian coordinate plane.</i>	The learners will demonstrate discipline, patience, and analytical thinking in identifying patterns and deriving rules in sequences, recognizing that order and consistency are essential in both mathematics and daily life.. Bible Verse: “For God is not a God of disorder but of peace.”	ACQUISITION				
				I.1.1 illustrate and describe the Cartesian coordinate plane.	I.1.1 Formative Assessment – Labeling	I. 1.1 Labeling Activity - Pair-Share Activity	I.1.1 Used of AI	Excellence Collaboration
				MAKE-MEANING				
				I.1.2 plot points on the Cartesian coordinate plane and determine the coordinates of a point on the plane solve problems involving distance between two points and midpoint of a line segment on the Cartesian coordinate plane.	I.1.2 Formative Assessment – Problem Solving Summative Assessment	I.1.2 Plotting Points Worksheet Written Output 4 Problem Solving Worksheets	I.1.2 Teacher Made Worksheet Math Builder p 134	Critical Thinking

		TRANSFER						
		Performance Standard/s <i>The learners should be able to . . .</i> plot points, find the distance between two points, and find the midpoint of line segments, on the Cartesian coordinate plane.	— 1 Corinthians 14:33 Values Grid Integration: Discipline and Accuracy	Transfer Goal I1.3 Find the distance of two locations in real life scenarios	I.1.3 Summative Assessment	I.1.3 Written Output	I.1.3 Teacher Made Activity

Thank you! I reviewed both your **syllabus** and **curriculum map template**, and I created a **sample Curriculum Map (Term 1)** following your exact headings and structure. This is ready for you to expand or encode into your template.

CURRICULUM MAP – MATHEMATICS 8 (TERM 1 SAMPLE)

Term # / Week	Unit Topic / Content	Content Standards / Performance Standards	Formation Standards	Learning Competencies	Assessments	Activities	Resources	Institutional Core Values & 21st Century Skills
Term 1 Week 2 (June 15–19)	Measures of Central Tendency	Content: The learners demonstrate understanding of measures of central tendency. Performance: The learners should be able to analyze and interpret data using mean, median, and mode.	The learners will become accurate and fair in collecting and interpreting data. Bible Verse: Luke 16:10 Values Integration: Honesty and integrity in reporting data	• Find mean, median, and mode (P) • Interpret statistical data (P) • Organize data systematically (S)	Quiz, Data Analysis Task, Performance Task	Survey activity, group data analysis, class discussion	Math for Critical Thinkers 8, calculators, worksheets	Integrity, Excellence Skills: Critical Thinking, Data Literacy
Week 3 (June 22–26)	Algebraic Expressions	Content: Understanding algebraic expressions Performance: Translate real-life situations into algebraic expressions	Become logical and precise thinkers Bible Verse: 1 Corinthians 14:40 Values: Order and discipline	• Translate verbal phrases (P) • Simplify expressions (P) • Identify terms (S)	Written exercises, drills, quiz	Think-pair-share, board work	Textbook, activity sheets	Excellence, Discipline Skills: Problem Solving, Communication

Term # / Week	Unit Topic / Content	Content Standards / Performance Standards	Formation Standards	Learning Competencies	Assessments	Activities	Resources	Institutional Core Values & 21st Century Skills
Week 4–6 (June 29–July 17)	Operations on Polynomials	Content: Understanding operations on polynomials Performance: Solve problems involving polynomial operations	Become persevering problem-solvers Bible Verse: Galatians 6:9 Values: Hard work, perseverance	• Add/subtract polynomials (P) • Multiply/divide polynomials (P)	Summative Test, drills	Guided practice, group work	Textbook, online tools	Perseverance, Excellence Skills: Analytical Thinking
Week 7 (July 20–24)	Special Products	Content: Special product patterns Performance: Apply identities in solving problems	Become analytical and observant learners Bible Verse: Proverbs 4:7 Values: Wisdom	• Identify special products (P) • Apply formulas (P)	Quiz, seatwork	Pattern recognition tasks	Visual aids, textbook	Wisdom, Excellence Skills: Critical Thinking
Week 8 (July 26–29)	Factoring Polynomials	Content: Factoring techniques Performance: Factor polynomial expressions correctly	Become careful and accurate workers Bible Verse: Proverbs 21:5 Values: Diligence	• Factor polynomials (P) • Apply factoring in problem-solving (P)	Summative Test	Guided drills, peer tutoring	Worksheets, textbook	Diligence, Integrity Skills: Problem Solving
Week 9 (Aug 3–7)	Rational Algebraic Expressions	Content: Rational expressions Performance: Simplify and solve rational expressions	Become careful and responsible learners Bible Verse: Colossians 3:23	• Simplify rational expressions (P)	Quiz, exercises	Step-by-step problem solving	Textbook, online practice	Responsibility, Excellence Skills: Analytical Thinking
Week 10 (Aug 10–14)	Generating Patterns	Content: Patterns and sequences Performance: Generalize patterns	Become creative thinkers Bible Verse: Genesis 1:31	• Identify patterns (P) • Generalize rules (P)	Performance task	Pattern investigation	Visual materials	Creativity, Excellence Skills: Innovation

Term # / Week	Unit Topic / Content	Content Standards / Performance Standards	Formation Standards	Learning Competencies	Assessments	Activities	Resources	Institutional Core Values & 21st Century Skills
Week 11–12 (Aug 17–26)	Cartesian Plane	Content: Coordinate system Performance: Plot and interpret points	Become accurate and systematic Bible Verse: 1 Corinthians 14:33	• Plot points (P) • Interpret graphs (P)	Performance Task, Exam	Graphing activity	Graph paper, ICT tools	Order, Excellence Skills: ICT Literacy

 Notes:

- Based directly on your **Term 1 syllabus pacing**
- Aligned with your **template components** (Content, Formation, Values Grid, etc.)
- Competencies labeled **P (Power)** and **S (Supporting)** as required
- Integrated **Bible verse + values + 21st century skills**

 Next Step

If you want, I can:

-  Convert this into a **Word file matching your exact template format**
-  Complete **Term 2 and Term 3**
-  Add **detailed Acquisition–Make Meaning–Transfer breakdown (A.1.1, A.1.2, A.1.3)** exactly like your template

Just tell me
